FLOORING SYSTEMS

coral® click

The first steps in protecting your building.

Coral Click is an exceptionally versatile 'off the shelf' modular matting system that can be assembled on site. Coral Click can be used on its own or in conjunction with our Coral clean-off textile ranges to provide an integrated entrance system.

This versatile PVC tile with Coral textile inserts can be used in all types of buildings and, because it contains no metal components, Coral Click entrance products are particularly suitable for installation in retail environments as they do not interfere with electronic-tagging systems.
• 'Off the shelf' modular matting system

• Exceptionally easy to fit, handle and store

• Available in 12mm & 17mm depths

• Textile inserts from the award winning Coral Brush collection

• 5 year guarantee

• Closed structure to prevent heel trap

Installation methods: Coral Click is an adhesive free tile which can be installed in the following directions; monolithic, brick, half drop, tesselated, quarter turn or quarter turn mirrored.

5 Guarantee: Coral Click is guaranteed for 5 years under heavy contract conditions provided it has been professionally fitted by a recognised contractor and regularly maintained in accordance with the Forbo requirements currently in force.

* straight running fixed wheel test

All Forbo Flooring Systems' sales organisations worldwide have a certified Quality Management System in accordance with ISO 9001.
All Forbo Flooring Systems' manufacturing operations have a certified Environmental Management System in accordance with ISO 14001.
Coral is manufactured in a facility certified to SA8000 and OHSAS 18001.

Colourway choice
As with any product, colour and design influence the appearance retention of the floor. The level and type of traffic should be considered as part of the process for selecting colourways. Light colours may not be suitable for heavy traffic areas.

Installation and maintenance
For the latest installation instructions, please visit
www.forbo-flooring.co.uk/installation

A well designed entrance flooring system will prevent dirt and moisture from being tracked into the building, prolonging the life of the carpet tiles, reducing cleaning, repair and overall maintenance costs. **Forbo Coral and Nuway entrance systems** are independently proven to remove and retain up to 95% of all dirt and moisture entering a building. Please contact customer services for more information.

Regular vacuuming is essential (using a high suction power driven brush vacuum). Spills and surface stains can be removed by sponging with a damp cloth or, for more resistant stains, with a mild detergent solution. For full installation and cleaning and maintenance instructions please go to **www.forbo-flooring.co.uk**
