The quintessential American dream, ROBERTS® began with a shared vision - a vision for working smarter not harder - to more quickly and efficiently install wall-to-wall carpet. Pooling a modest sum of \$3,000 to invest in plywood, a table saw, shingle nails, pliers and a few other essentials, Roy Roberts, Hugh Livie and Ken Bishop travelled the countryside selling and training installers to use tackless carpet strips.

Decades later, with countless patents and hundreds of products available worldwide, ROBERTS continues to be recognized as the world's authority on flooring installation tools, earning the respect and trust of generations of carpet installers.

We take great pride in the quality and dependability of our ROBERTS products and are committed to the evolution of these offerings to meet the needs and challenges of today's professional installers.

A Brand You Can Trust.

An iconic brand with an established market in more than 100 countries, ROBERTS capitalizes on decades of experience in the industry, fosters True Partnerships with national trade affiliates, and is committed to exceeding your expectations – one product at a time.

ABOUT CALIFORNIA PROPOSITION 65

Proposition 65 is a California regulatory law that requires businesses to notify California consumers about specific chemicals in the products they purchase so they can make informed decisions about protecting themselves from exposure to these chemicals. This law requires companies to properly label products that contain chemical(s) above certain threshold levels.

As part of Q.E.P. Co. Inc.'s continued best business practice and compliance program, we comply with Proposition 65 warning requirements and provide product-associated warnings. We are dedicated to meeting consumer product safety requirements applicable to our products and strive to provide high quality and safe products.
